# Edward Frazenburg

Founder

I am Edward Frazenburg and I started working with wood at a young age of 14 years old. I started following the footsteps of my father who showed me the different kinds of furniture that can be made from wood. I have a passion for creating different woodwork and has learned a lot about wood throughout these years.

# This Is Our History

Werwel Holdings is a family-owned business that was founded in 2016. The name of the company comes from the yearly years where doors were kept locked with a piece of wood and hole inside that is called a werwel (turn button). Today, Werwel Holdings uses the very same technique to ensure that everything inside a cabinet is kept secure. Our company refurbishes vintage cabinets, a variety of antique furniture, as well as manufacture custom-built cabinets.

# Our Vision

To create job opportunities for people who has a passion for working in the furniture-manufacturing industry by making and selling vintage cabinets and furniture.
