JOIN THE BUY LOCAL MOVEMENT

The furniture industry is the third largest labour-intensive manufacturing industry in South Africa, contributing 1% to GDP.

Furniture exports represent approximately R3.9bn whereas imports are R6.9bn and more than 45% of imports are coming from China. In 2009 the sector supported 50 000 jobs. Today there are only around 26 400 workers of which over 90% are employed by SMMEs.

The furniture value chain represents immense potential for job creation and has been identified for a special forum, presented by Proudly SA in conjunction with the dti, SA Furniture Initiative and PG Bison.

Join the local industry experts and be part of the buy local and market access conversation aimed at improving market access for furniture manufacturers and exploring potential local markets.
